

ARE YOU GETTING THE MOST FROM YOUR FX PAYMENTS PROVIDER?

We know that managing time and cost is important to businesses in the electronics industry in Australia. At Travelex Global Business Payments we can help by saving you time and money on your FX risk and international payments processes.

In an industry driven by significant and rapid advances in technology, where businesses are time poor and cost constrained, it makes sense that you look for partners who can help support your business. At Travelex, we work with businesses right across Australia including many in the electronics industry such as Vendart, Australian Securities Technology and Beam Digital. We can help you save time and money on managing your foreign exchange and international payments.

And with the ability to make and receive payments in more than 120 currencies, from the US Dollar and Euro to Malaysian Ringgit and Chinese Yuan, we've got your currency needs covered.

“Since 2005 Travelex has consistently achieved a 99% straight through rate for USD payments processing. Travelex is among the leaders in the industry. Their expert knowledge and quality processes ensure that high standards are maintained and that payments flow through our systems without undue delay.”

Bank of New York Mellon
